EDUCATION

Diploma in Computer Applications Programming, Universidad Nacional de Costa Rica | Jan 2023–Jul 2025

Bachelor's Degree in Systems Engineering (In progress), Universidad Nacional de Costa Rica | Jan 2023–Nov 2026

PROFESSIONAL EXPERIENCE

Intern – IT Customer Experience, QA, and Full Stack Development | Jul 2026 - Present

Coopeguanacaste R.L. – IT Department

- Developed and deployed to production the FaunaReport web module in React: layout, Navbar, text components, and backend integration through HTTP requests to the incidents endpoint.
- Fixed security vulnerabilities and implemented TanStack to protect public credentials, following audit guidelines.
- Implemented new email notifications in MAM: created database fields, configured templates and variables, and optimized existing alerts.
- Executed QA testing on CoopeVirtual and took part in validation sessions for the new E-commerce platform, detecting issues early and producing process validation reports.
- Gathered requirements for CoopeWeb procedures and compared procedure line items between the database and CoopeWeb, documenting the analysis in Excel.
- Built reports on the cooperative's procedures and processes in NetSuite.

Full Stack Developer – Freelance | March 2025 – Jun 2026

Cámara de Ganaderos – Informational and Administrative Web System

- Developed a full stack web application with React, Node.js, and MySQL to digitize administrative and budgeting processes, including a module to manage actual and projected income and expenses.
- Implemented authentication and authorization with protected routes through REST APIs to ensure secure access to information.
- Implemented dynamic forms and front-end validations, improving administrative information management.

Academic Project – Municipal Management System | November 2025

- Developed a municipal management web system (taxpayers, properties, and procedures) with React, TypeScript, and .NET.
- Implemented a REST API in .NET with CRUD operations, validations, and business rules, and built the React and TypeScript interface with dynamic forms and tables.
- Designed the SQL Server database with tables, relationships, stored procedures, and triggers for records and auditing.

Student Assistant – Systems Engineering Coordination, UNA | March 2025 - Present

- Support administrative management, academic coordination, and institutional event organization.

TECHNICAL SKILLS

Development: React, JavaScript, TypeScript, HTML, CSS, Tailwind, TanStack, Node.js, .NET, C#, C++, Flutter, Dart.

Backend and Data: REST APIs, SignalR, RabbitMQ, SQL Server, MySQL, Oracle APEX, PostgreSQL.

QA and Tools: QA testing, Postman, TestFlight, Mailtrap, Azure DevOps, GitHub, VS Code, NetSuite, Power BI.

LANGUAGES

Spanish (native), English (intermediate: reading comprehension and basic conversational communication).

SOFT SKILLS

Teamwork, effective communication, analytical thinking, problem solving, adaptability, and fast learning.

ACTIVITIES

1st Place – UNA Cybersecurity Hackathon 2026 (team project) | 2026

Captain – Women's University Futsal Team | Mar 2024 – Jun 2025

CERTIFICATIONS

PM4R Practitioner | Jun 2025

Scrum Fundamentals Certified | Apr 2025

From Data to Decisions: Master Power BI + AI (40 h), Universidad Nacional – School of Administration | Aug 2026

Intermediate English Level, Academia Europea | Nov 2025
